Summary

AI & Data Science student (graduating 2027) with hands-on experience building and deploying end-to-end Machine Learning solutions, from data cleaning and model training to interactive web apps. Trained through ITI, NVIDIA, Cisco, and Sprints x Microsoft, with a solid foundation in Python, Scikit-Learn, and data analysis. Currently completing the FlyRank AI Internship (ML track). Strong communicator, comfortable in teams, eager to apply AI to real-world business problems.

Education

Senior Student | Zagazig National University | Faculty of Computer Science | Artificial Intelligence and Data Science Department, the expected date of graduation, 2027

Courses and internship

- FLYRANK AI INTERNSHIP PROGRAM - MACHINE LEARNING TRACK, JULY 2026 COHORT
- DATA SCIENCE ESSENTIALS WITH PYTHON - CISCO NETWORKING ACADEMY, 2025
- EMPLOYABILITY SKILLS, MODULE 1 (#BEREADY PRESIDENTIAL INITIATIVE) AT UNIVERSITY CENTER FOR CAREER DEVELOPMENT (UCCD), 2025
- SUMMER TRAINING IN ARTIFICIAL INTELLIGENCE (90 HRS) AT INFORMATION TECHNOLOGY INSTITUTE (ITI), JULY 2025
- GETTING STARTED WITH DEEP LEARNING AT NVIDIA ONLINE PLATFORM 2025
- SPRINTS X MICROSOFT SUMMER CAMP - AI AND MACHINE LEARNING AT SPRINTS ONLINE PLATFORM 2025
- BUILT A DISCRETE MATHEMATICS MATRIX CALCULATOR WITH A UNIVERSITY TEAM USING JAVA (OOP, JAVA SWING GUI), 2024

Projects

- **CREDIT RISK PREDICTION APP - END-TO-END MACHINE LEARNING PIPELINE**
- Performed EDA and preprocessing on the German Credit Dataset using Pandas, Matplotlib and Seaborn
- Trained and compared Decision Trees, Random Forest, Extra Trees and XGBoost classifiers
- Deployed the best-performing model as an interactive real-time risk-prediction web app with Streamlit
- **CREDIT CARD FRAUD DETECTION SYSTEM - END-TO-END MACHINE LEARNING SOLUTION**
- Handled highly imbalanced data (fraud cases at 0.13% of transactions) and built a clean Scikit-Learn preprocessing and modeling pipeline
- Tuned a Logistic Regression model with class weights to prioritize recall for fraud cases
- Built an interactive Streamlit web app for real-time fraud prediction from transaction details

Skills

- Programming: Python, Java, Object-Oriented Programming (OOP)
- Machine Learning & Deep Learning: Scikit-Learn, XGBoost, Neural Networks, Model Deployment
- Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Exploratory Data Analysis (EDA)
- Tools: Streamlit, Git/GitHub, Project management software
- Good in English, Spoken and Written • Public speaking
- Emotional Intelligence & Communication Skills

Activities

Enjoy physical activities like going to the gym and playing football
